WARREN HOUSE,
At the junction of Merrimack and Friend Streets.

This establishment having now gone through extensive and thorough repairs and additions, will compare with any other public house of its size. It has been furnished from top to bottom with new furniture, bedding, carpeting, &c., and is now open for the accommodation of travellers.

It is the intention to conduct the House after the mode of the most approved public houses—and every effort will be made personally, and by well tried assistants, to please his former custom and those who may visit the Warren House for the first time.

Extensive stables, with pure water, is attached to the establishment. AZARIAH PROCTOR.

ELM STREET HOTEL.
No 9 Elm Street, Boston.

Z. MACOMBER would apprise his friends and the travelling public generally, that he continues the well known General Stage House, occupied some time since by Jones Eastabrooks & Co, and formerly by C. Jennings, where he will be happy to receive both acquaintances and strangers, and will use every exertion to gratify their wishes and make their stay comfortable. The Hotel has been thoroughly repaired and refitted; and to business men in particular it offers a central and convenient house of entertainment.

Mr J. T. Macomber still superintends the affairs of the establishment—and from his long familiarity with the duties of a public house, full confidence is felt in his ability to give entire satisfaction to every class of visitors.

Stages leave this house for each of the rail road depots—and for different parts of the country. Attached also are two large and airy stables. T&F12t a11

MANSION HOUS ,
Broad Street, Nantucket.

The subscriber, for the liberal patronage he has heretofore received from many of the citizens of Boston, and its vicinity, presents his respectful thanks, and assures them and the public generally, that every pains will be taken for the future to give agreeable accommodations to travellers who may visit his house. JOHN THORNTON.

CERTIFICATES.

Scituate, March 12, 1836.

I was afflicted six years with Dispepsia. No physicians nor medicines gave me relief—I suffered much, and was reduced very low—a friend of mine recommended to me the Jelly of Pomegranate. I bought two bottles, and used one and two thirds of another, and I am entirely cured—it is now three months since, and have had no ill turn.

HANNAH LITCHFIELD.

Cohasset, March 13, 1836. My child, a girl six years old, was afflicted with a humor ever since two years of age, and t began to be very troublesome, principally on the head and face. I bought the Jelly Pomegranate and Salt Rheum Ointment, prepared by Dr Gordak, used it according to his directions, and in one week my child was cured—it is now six months since, and no humor has appeared again.

WM. BROWN.

Boston, Nov. 12, 1836. Two months before I applied to Dr Gordak, was taken with a Cough, attended with a dull head ache—the cough kept growing worse—a shortness of breath appeared, and I kept losing flesh very fast—in short it was alarming. I applied to Dr Gordak—he gave me two kinds of medicine—the Jelly of Pomegranate, and Pulmonary Jelly—I took the medicine according to his directions, and received immediate relief—in the course of 14 days I was entirely cured. NELSON F. ROBY.

Boston, Nov. 12, 1836. I was subject to canker in the stomach, throat and mouth about a year since—it troubled me very much—I was recommended to make use of the Jelly of Pomegranate and Pills, prepared by Dr Gordak. I used the medicine with astonishing success—in five or six days I was entirely cured, and ever since have been free of canker. I really think there is no medicine for canker equal to the Jelly Pomegranate. ELIZABETH L. MERRITT.

Boston, July 4, 1836. Dr Gordak, Sir: I cannot help acknowledging my gratitude to you for the cure I received, in the use of your Jelly Pomegranate and Pills. My disease was a universal weakness—I was so low that I was unable to walk out of the house, and continued to grow weaker every day. I used your Jelly Pomegranate and Pills with such success, that in one week I was entirely cured.

JOHN BURNS.

Dorchester, Nov. 6, 1836. I have for several years been afflicted with a humor, which was very troublesome—about 6 months ago I was advised to call on Dr Gordak—he recommended to me the Jelly of Pomegranate and Salt Rheum Ointment, which I used according to his directions, and in a short time I was entirely cured, which I can fully testify.

SARSAPARILLA

READ, REFLECT, DECIDE.—The virtues of Sarsaparilla have been celebrated for more than two hundred years, during which long period it has been in more or less repute—every thing, however, depends upon its mode of preparation, and unless taken in considerable quantities, and persevered in for some time, it is perfectly useless. When properly prepared and administered, it is a sovereign remedy in Rheumatic affections, Scrofula, and all cutaneous complaints, such as obstinate eruptions of the skin, pimples, or pustules on the face, biles which arise from an impure habit of body, scaly eruptions, syphilitic complaints, mercurial diseases, ulcers, diseases of the liver, general debility, and all impurities of the blood. The truth of these remarks have all been tested and declared, by some of the most eminent French and English chemists and physicians—among the former are Lavoisien, Chaptal, Pelletier, and others, of Paris, and among the latter, Sir Astley Cooper, Sir John Home, Abernethy, and Letsom, in London.

Wallace's Concentrated Syrup of Sarsaparilla, now offered to the public, contains not only the virtues of this particular article, but also that far famed wood, called the Wood of Life, and among other important additions, forming altogether that well known composition under the name of Liscon Diet Drink, a medicine peculiarly calculated for the complaints above enumerated. The manner of preparing the Sarsaparilla by Dr. Wallace, having been made known to Dr. Harrington, Dr. Smith, Dr. Parker, Dr. Goodrich, Dr Adams, and Dr. Carter, of the different cities in the U. States they have evinced their approbation of it, by invariably prescribing it to their patients, and recommending it to their professional brethren; all doubts and cavils therefore upon the superior merits of this composition must cease forever, but in order to satisfy the most incredulous, the particular mode of preparation is here subjoined, by which it will be perceived that it is of four times the stength of any ever before sold, it behooves the purchaser therefore *to look well to that fact* and purchase only of the proprietor's sole Agent, at the Druggist store corner of Milk and Bath streets, directly opposite Pearl street, where, for more than two years, it has met with the greatest approbation—Price $1 a junk bottle, or six for $5—each bottle sealed with the initials of the Proprietor.

Mode of Preparation. In addition to the strongest decoction of the root, there is also subjoined, the costly extract of Sarsaparilla, and the fluid extract, the former prepared by Mandee, Weaver & Mandee, of Wolveshampton, the greatest Chemists in England, and the latter a well known Chemist in America.

☞ Remember the place of sale, at the Druggist store corner of Milk and Bath streets, opposite Pearl st.

N. B. The above preparation is the very best medicine which can be used during, and on the approach of Spring.

GREAT LAND SALE, AT TOLEDO, OHIO.

An extensive sale of Real Estate will take place by public auction, at Toledo, Ohio, on the 15th day of June next, and continue for three days successively: at which time a large amount of the most valuable property ever offered at public sale, will be brought into market. The land to be sold, will comprise, among others, the following, viz:

In Toledo—Several entire Blocks (containing in all, when subdivided, from 300 to 500 lots); one 5 and one ten acre lot, within the city limits; and three or four valuable improved farms contiguous to the town.

A valuable stone quarry and water power upon the Ottowa river, 10 miles west of Toledo, embracing the point where the Toledo and Michigan City Railroad will probably cross—containing 80 acres of land.

480 acres of the finest quality of farming lands, adjoining the village of Sylvania, 10 miles from Toledo. The soil is dry, and well adapted to gardening or ornamental farming. A portion of this tract can be conveniently laid off into lots, and form an important addition to the village which it adjoins. The Erie and Kalamazoo Railroad passes through the centre of it, and there is a small frame house and other improvements upon it.

An undivided interest in the thriving village of Palmyra situated upon the river Raisin, 26 miles northwest of Toledo, embracing an excellent water power, which is well improved. The Erie and Kalamazoo Railroad, which is now in full operation, crosses at this point; and the Palmyra and Jacksonburgh Railroad, a considerable portion of which is already under contract, and rapidly progressing in its construction, terminates in the heart of the village. It contains 211 acres of land, and the town is rapidly increasing in population and business.

2500 acres of choice farming lands, well timbered, lying from one and a half to four miles from the village of Blissfield, on the river Raisin, and 20 miles from Toledo, where there is a good water power, and mills now in operation. These lands are also within a short distance of the Railroad.

From 8,000 to 10,000 acres of choice farming lands, situated from 10 to 25 miles from Toledo, upon the line of the Toledo and Michigan city railroad; and embracing all the different varieties of timbered, opening, and prairie lands.

An undivided interest in the valuable water power and town site upon the Little St Josephs river, 56 miles west of Toledo. It contains 640 acres of land.

IN WISCONSIN TERRITORY.

An important interest, comprising a large number of lots in Madison, the seat of government of Wisconsin.

An undivided interest in the town site of Marquett, on Lake Puckaway, an important Steamboat Landing on Fox River, similar to Peoria, on the Illinois river, containing about 500 acres of land.

Two valuable town sites at the outlet and inlet of the Four Lakes, embracing an extensive water power at the former place, and controlling the terminating points of the proposed canals uniting those Lakes with the Wisconsin and Rock rivers. Also an interest in the crossings between the 1st and 2d Lakes—the site of an old Indian village. Important and thriving towns must soon spring up at each of these points. They embrace about 1200 acres of land.

An undivided interest in the Grand Crossings and extensive water power at the Rapids of Sugar river, upon which the old Agency House, and a large Indian village were formerly situated. It embraces 424 acres of land.

An undivided interest in the valuable town site at the outlet of Lake Koshkenong, the head of navigation for the larger class of Steamboats upon Rock river. This is a splendid location; and is, without doubt, the most important and commanding position for an interior town, within the Territory of Wisconsin. It is now the site of a large Indian village, and will, in a few years become one of the most populous and bustling cities west of Lake Michigan. It contains about 900 acres of land.

From 3000 to 4000 acres of the first quality of farming lands, lying from one and a half to three miles from Madson, the seat of government.

From 10,000 to 20,000 acres of land lying from 3 to 10 miles from Madison; the principal part of which, as well as the last mentioned body of land, border upon the Four Lakes, and comprises large proportion of the valuable prairie and timber lands by which those beautiful sheets of water are surrounded. They afford some of the most delightful situations for residences to be found in any country.

The above comprise but a limited proportion of the valuable property which will be offered at these sales. It is confidently believed that they will embrace a larger amount of desirable property and afford a better opportunity for profitable investment to eastern capitalists, than has ever been offered at any similar sale.

The terms will be 25 per cent. down, and the balance in three equal annual payments. Should any deviation be made from these terms, in any of the property offered such deviation will be announced and distinctly specified before the sale.

The undersigned reserve to themselves the privilege of disposing of any property they intend to offer at private sale, previous to, or upon any of the days of sale.

Maps and diagrams of the property offered, together with full and accurate descriptions thereof, will be prepared and ready for inspection, at the offices of the subscribers, from and after the first day of May next.

ANDREW PALMER.

ORIGINAL POETRY.

THE INDEPENDENT MAN.

I love the independent man—
His "free and easy" look;
I reverence such a biped, be
He either king or cook.
I love him with as natural
Affection, as I do
The little, modest, sweet, divine,
Exquisite creature, who—

I know him by the quiet way
In which he takes his quid,—
As if he said "the devil take
Reformers who forbid."
I know him by the negligent
And dickyless cravat;
The tow-string substitute for the
Black ribbin of his hat.

I know him by the musing smile
That plays around his face:—
He's thinking of the freezing forms
That stultify his race.
He scorns that musty statute-book
That crushes feeling—"*custom*"—
And they who deem its edicts law—
He'd sooner shoot than trust 'em.

He never asks, in formal tone,
"Will you take a glass of wine?"
'Tis "come and see me, often come,
And smoke, and sleep, and dine."
His hands he pockets when he walks—
And never takes them thence,
Unless the beggar passes by
And claims his *pension*-pence.

He never spunges you of cash—
And "promises to pay;"
He never troubles you to tell
Him "what's the time of day."
'Tis all the same—or rich or poor,—
Incarcerate or free,—
His sails are always with the breeze,
And love of him in me. NAT.

A Wife.—The Georgetown Metropolitan gives the following graphic sketch of a scene which appears to have awakened the chivalry of antiquity in the writer's breast:

"During the late trial of Richard H. White, Mr Key opened the case on the part of the United States, and in his remarks he felt it his duty to urge upon the consideration of the jury the bad character of the prisoner. He poured upon him a withering array of epithets.

During the philippic, White sat perfectly patient. His wife sat next to him, and as soon as Mr Key finished the invective, she placed her hand upon his arm and spoke to him tenderly, as if to soothe him. White gazed with affection on her face, and we imagined that the voice of the lawyer was still and mute in his ear. He heard no more the loud and angry charges—he listened no more to the terms of reproach heaped upon him—he saw not the jury that was to try him—he saw not the bench that, perhaps, was to pass sentence upon his crime—but his ears drank in the sweet tones of that woman. He saw her deep love shining through her eyes—his memory went back to other and calmer days. And what deep and yearning love was centered in the spirit of that wife! Her husband almost a branded felon—within one step of the gibbet—his name a by-word—his character a reproach—around her a, perhaps, indifferent audience—no, we will not say that, but surrounded by persons careless of his fate—she poured forth the modest, yet sublime, tribute of her love, her protecting affection, her tried and trusty devotion, into the ear of her husband.

Beautiful picture of the human heart, did the scene present! And in our mind, at least, it cast a shadow which nothing shall efface. It will serve as a bright memento of a scene replete with anguish and affection. And this was the woman who declared to a witness the noble sentiment, "If all the world knew her husband guilty, she, in her heart, knew him innocent." This is equal to that of the wife of the poor Irishman, who, when they were dragging him to prison because he would not betray his conscience, thus addressed him: "Remember your soul and your God!"

Mrs White may be the wife of a convicted culprit, but her name will be linked with virtue and romance."

LIGHTNING CONDUCTORS.

DR KING, continues to prepare and affix to buildings his improved lightning conductors—they are approved of by all practical Electricians as affording superior protection against lightning to the old round form. Numbers of scientific gentlemen in Boston and its vicinity, have had them affixed by him to their Mansions and other buildings, among them he will name those of President Quincy, Professor Webster and Popkin of Harvard University, Governor Lincoln of Worcester. They were likewise highly recommended by Professor Silliman in his much esteemed lectures on Chemistry lately delivered in Boston. Gentlemen intending to have conductors, are invited to his room No 54 Cornhill, Boston, where they may see the superior effect of his rods illustrated. He continues to manufacture, and has on hand large plate Electrical machines of superior powers, also Cylinder's—Large and small Galvanic batteries, Electro Magnets and their apparatus—warranted of the best workmanship. He lately constructed for Professor Silliman the largest Galvanic Deflagator ever made. Gentlemen arriving in Boston to purchase such articles, would do well to call before they buy. His prices will be accomodating for cash or approved credit.

N. B.—Dr KING is not in partnership with any one.

SUSPENSION OF SPECIE PAYMENTS BY THE NEW YORK BANKS.

☞ We give below copious extracts from the New York papers of Wednesday, relative to the suspension of specie payments by the Banks, in that city.

From the New York Times.

The stoppage of the Dry Dock Bank, and various other causes led to the run for specie yesterday on the whole of our Banks. Depositors became alarmed, and the panic extended to all classes. Money was drawn out, the specie demanded, and in many cases sold at a premium of 3 and 4 per cent., unprincipled persons getting the Bills of the Banks, obtain specie for them, and sell it, repeating the game as fast as they could obtain the Bills. Specie to the amount of $700,000 was thus drawn out yesterday, and the prospect for to-day such as threatened the total destruction of the varied institutions. The Presidents and Cashiers held a meeting last evening, and determined, while they could be enabled to protect their bills and the community, for a time to relinquish specie payments. The bills of all the banks will be taken on deposite and in payment as usual, and of course be equally good, to merchants and traders, for active operations, as ever.

In a short time specie payment will doubtless be resumed. Persons holding the bills can use them with the same facility as before, and no sacrifice will, of course, take place. The great fire, added to the speculations and panic, have caused this unpleasant measure, but it is unnecessary in the slightest degree to allude to causes now, nor would we were it not that the unfounded cant of the Specie Circular may and probably will be spoken of in other quarters, in that light.

It is now the duty of *the public*, of individuals, to sustain each other. The rich must afford every facility to the poor, and all classes must do their best to make business go on with its accustomed spirit. We have but to exercise the usual energy that is displayed by our citizens, and we shall shortly have a return to good times. The following article has been handed us for publication. We trust before long we shall be enabled to make a counter statement, and say specie payments have been resumed. In the mean time the New York Bills, for active operations, are as good as cash.

"NOTICE TO THE PUBLIC IN RELATION TO THE BANKS.

At a meeting last Evening of the Officers of all the Banks in this city, except three, it was,

Resolved, That under existing circumstances, it is expedient and necessary to Suspend Payment in Specie. In the mean time, all the notes of all the Banks will be received at the different Banks as usual in payment of debts and in deposite, and as the indebtedness of the Community to the Banks exceeds three times the amount of their liabilities to the public, it is hoped and expected that the Notes of the different Banks will pass current as usual, and that the state of the times will soon be such as to render the resumption of Specie Payments practicable.

May 10, 1837."

From the New York Evening Post.

We hear that an application has been made to the legislature of the State to legalize this refusal to pay specie. That body cannot be too cautious in acting on this matter. The moment they enter upon it they are upon dangerous ground. A legal permission to the banks to refuse payment of their notes, and yet continue their issues, might lead to the most frightful consequences. It might be abused to the issuing of a flood of bank paper without bounds, till the confusion of the currency reached a pitch of which we have now but a faint idea, till the depreciation of bank notes had become as great as that of the old continental paper money, and a five dollar bank note would be paid for an oyster in Catharine Market. It would be taking off the most powerful restraint which ties down the banks to prudence in their issues. The ruin which such a measure postponed would burst upon us at last with tenfold fury.

From the New York Journal of Commerce—Evening edition—2 o'clock.

The City.—The suspension of specie payments by the Banks, has, as might be expected, created a considerable sensation throughout the city. To the reflecting and intelligent part of the community, it is however a matter neither of astonishment or alarm; and even amongst that class of persons who must be supposed to know less about the causes which have produced it, it has not occasioned so much excitement as might have been expected. Up to this hour not the slightest ebullition of popular violence has been exhibited, nor is anything of the kind expected, but the city authorities have nevertheless prudently made ample preparation to meet the evil if it should come. They have a large body of troops under arms, besides all the Police and Watch force of the city, ready to act at a moment's notice. As yet there is no symptom that their services are likely to be required.

The three Banks which were not parties to the Notice of Suspension which we published this morning, have since come into the measure. None of the Banks have paid specie to day.

Public Meeting at the Merchants' Exchange.—The following call was this morning circulated:—

PUBLIC MEETING.

A public meeting of Merchants and Traders, and others, is requested at the Merchants' Exchange, THIS DAY, at 12 1-2 o'clock, to consider and adopt such measures as may be deemed necessary and expedient under the suspension of specie payments by the banks.

D. Leavitt, John A. Stevens, Saul Allen, Richard M. Blatchford, Nevins, Townsend & Co. Jno. P. Stagg, Jas. G. King, G. C. Verplanck, C. H. Russell, Benj. Birdsell, Jos. Depew, Day, Newill & Day, Nath. Prime, C. W. Lawrence, W. W. Woolsey, Edward Curtis, Thos. Lord, Samuel Ward, W. B. Lawrence, Howland & Aspinwall, Andrew Lockwood, Philetus H. Woodruff, Cornelius McLean.

New York, May 10, 1837.

In consequence thereof an overflowing meeting assembled at the hour named, when on motion the following officers were appointed:

President—James Boorman.

Vice Presidents—Nathl. Prime, Gideon Lee, David Leavitt, P. G Stuyvesant, G C. Verplanck, Wm. B. Astor, Thaddeus Phelps, Robt. Lenox, Stephen Whitney, C. H. Russell, Benj. Birdsall, Joseph Depew, Andrew Lockwood, Philetus H. Woodruff, Samuel Ward.

Secretaries—John A. Stevens, Richard M. Blatchford, Wm. H. Aspinwall.

Jas. G. King then presented himself to the meeting, and having read the call, which he enforced by a brief and pertinent address, moved the following resolutions, which were seconded by Nathaniel Prime.

Whereas, at a meeting last evening of all the Banks in this city except three, it was

Resolved, That under existing circumstances, it is expedient and necessary to suspend payments in specie.

In the mean time, the notes of all the Banks will be received at the different Banks, as usual, in payment of debts and in deposite; and, as the indebtedness of the community to the Banks exceeds three times the amount of their liabilities to the public, it is hoped and expected that the notes of the different Banks will pass current, as usual, and that the state of the times will soon be such as to render the resumption of specie payments practicable.

Resolved, That relying upon the above statement, we have full confidence in the ultimate ability of the Banks of this city to redeem all their bills and notes, and that we will ourselves continue to receive, and we recommend to all our fellow citizens to receive them as heretofore.

Resolved, That in an emergency like this, it is alike the dictate of patriotism and self interest to abstain from all measures tending to aggravate existing evils; and by mutual forbearance and mutual aid, to mitigate, so far as

practicable, the present difficulties, and most essentially to assist in the restoration of specie payments.

In the course of which he inculcated the necessity of mutual aid and forbearance, and that all should put their shoulder to the wheel without looking *now* to the causes of our calamities—though a time to examine and proclaim these causes would surely come. He said it was with deep humiliation as a merchant, that he witnessed this hour—and it was only in the belief that the suspension of specie payments by the banks would be temporary, and in the conviction that in order to hasten the period of their resumption, the co-operation of all was now required to sustain the credit of the bills of the banks, that he had consented to present himself to the meeting.

The resolutions were put singly, and unanimously adopted, and the meeting adjourned.

There is to be a meeting of the Chamber of Commerce at 2 o'clock, having the same general objects in view.

We cannot doubt that these proceedings, so unanimous and so full of confidence, will tranquilize the public mind, and serve to obviate embarrassment.

From the Evening Post, 2 o'clock P. M.

The banks yesterday afternoon agreed to suspend specie payments. Three banks had refused to do so, but this morning they determined before bank hours to come into the measure.

This course was forced on the banks by the unrestrained run upon them for specie, not only by bill holders, but depositors. We do not wish to indulge in any unnecessary animadversions on the conduct of any party, but it cannot be denied that the whigs were the principal cause of the demand for specie. No man can say Loco Foco-ism had any thing to do with it. Most of the withdrawals were in checks, for large sums, and in many instances the specie was sold to brokers for a large premium.

It will be seen by our report that the Stocks have nearly all advanced 15 per cent. Nothing whatever is done in country money. In a few days the brokers will make arrangements to purchase it.

We learn that the Bank Commissioners now in town, will proceed to Albany, and ask the legislature to repeal the provision of law restricting the suspension in specie payments to ten days.

The excitement at the early part of the day subsided, and the measures of precaution taken by the new Mayor were rendered unnecessary.

MEETING IN FANEUIL HALL.

In consequence of the intelligence received from New York, yesterday, that the Banks of that City had suspended Specie Payments, a meeting was called in the afternoon, at Faneuil Hall, to take into consideration the expediency of the Banks of this City adopting a similar suspension. Although only two hours' notice was given, at six o'clock, crowds, chiefly composed of merchants, and people connected with banks, were pressing towards the Hall. At out quarter past six, the meeting was called to order, by Dr E. H. ROBBINS, and the Hon. S. A. ELIOT, Mayor, was called to the Chair. In taking the Chair, Mr Eliot made a few appropriate remarks, and characterized with great moderation. He warned the assembly against the evils of excitements and the apprehension of unreal dangers, and reminded the meeting that dangers produced by fear, were often greater than those produced by that which is feared. He expressed a hope, that every one would lay aside political feelings and considerations, and that the meeting would confine its resolutions strictly to mercantile affairs. Courage only, he said, was wanted; and he begged that the community might not be frightened with a shadow, since all the property of the country remained as before, whatever may have happened. The industry—the thrift—the ingenuity of the country still remained; and these substantial elements of prosperity, and union, courage and calmness was all that was necessary to enable the community to triumph over crises like the present.

The remarks of the Mayor were received with great favor in every part of the Hall.

Upon motion, Messrs CHARLES HENSHAW and HENRY RICE were appointed Vice Presidents, and

Messrs. SETH J. THOMAS and HENRY EDWARDS, were appointed Secretaries.

Thomas B. Curtis moved, that a committee of five should be appointed to retire and prepare resolutions, and

Messrs Thomas B Curtis, John Heoshaw, George Darracut, Henry Williams, and Benjamin A. Gould, were appointed on this Committee, and in a short time reported the following

RESOLUTIONS.

1. Resolved, That this community deplore the circumstances which have led to the suspension of Specie Payments in New York and several neighboring States, and that consequently the same measure become necessary in this and in all the States so intimately connected with their commercial interests.

2. Resolved, That we have full confidence in the management and stability of the Banks in Boston, and in their ability to meet with coin all their bills in circulation, yet in doing so, we apprehend that their means of sustaining the industry of the community would be absorbed.

3. Resolved, That we will show our confidence in the Banks of Boston, by continuing to receive and pass, as heretofore, their bills.

4. Resolved, That the Executive be respectfully requested to convene the Legislature of this Commonwealth as early as may be, to adopt such measures as shall be deemed expedient.

5. Resolved, That a Committee be appointed to wait on the delegates of the several banks now assembled, to express to them the sense of this meeting, assuring them of the support of this community, should they decide it to be necessary to make a temporary suspension of Specie Payments.

6. Resolved, That during the present unprecedented derangement of trade, a mutual forbearance should be exercised by the merchants of this city, and that the banks should afford all the accommodations which their circumstances and safety will admit, in the hope that by these means, Boston may escape the extensive ruin, with which other cities have been overwhelmed.

The acceptance of these resolutions being moved and seconded, Mr Henry Williams addressed the meeting, and was followed by Mr P. P. F. Degrand.

The question was then called for, and the resolutions were adopted *nem. con.*

Messrs Thomas Lamb, W. W. Stone, Zebedee Cook, Jr. Henry Edwards, and P. S. Shelton, were then appointed a committee to wait on the delegates from the Banks, agreeably to the 5th Resolution; and

His Honor the Chairman, and the Vice-Presidents, in addition to the foregoing committee, were appointed a committee to wait on the Executive, agreeably to the 4th Resolution.

Voted, That the proceedings of the meeting be signed by the Chairman and the Vice Presidents, and published in the Boston newspapers, on Friday, the 12th inst.

The meeting then adjourned, having been together only an hour. The number present was about 3000.

MEETING OF BANK OFFICERS.

A meeting of the Bank officers from forty-six different Banks, located in Boston and its immediate vicinity, was held last evening at 8 o'clock; the official account is published below. The Massachusetts Bank and the Middling Interest Bank were not represented—of course the statement in the official account, that all the Boston Banks participated in the proceedings, is incorrect.

In consequence of the painful intelligence of the suspension of Specie Payments of all the banks in the city of New York, a meeting of gentlemen was held last evening in the Hall of the Tremont bank, composed of Representatives from all the banks in the city of Boston, and from sundry banks in the vicinity; Samuel Hubbard, Esq. was chosen Chairman and Henry Upham, Secretary.

After deliberation on the subject of their meeting, it was determined, in consequence of the intimate connexion in business between this city and the city of New York, that no alternative to the banks remained, but to suspend Specie Payments. It was therefore

Voted, That the banks in this city and vicinity, do suspend Specie Payments for the present.

Voted, That Messrs. Samuel Hubbard, S. T. Armstrong, R. G. Shaw, Wm. Appleton, James Reed, Mark Healy and Henry Upham, be a Committee to consider and report at a future meeting what further measures, if any, are necessary to be taken in consequence of the suspension of Specie Payments.

The meeting was then adjourned.

SAMUEL HUBBARD, *Chairman.*

HENRY UPHAM, Secretary.

STOPPAGE OF SPECIE PAYMENTS!

Copious extracts from New York papers of Wednesday announcing the determination of the Banks of that city to suspend Specie Payments, will be found in this morning's Post, commencing on the First Page. The news produced great excitement when it reached this city, and has led to the adoption of similar measures here, and in Rhode Island and Connecticut. The necessity for this disastrous course on the part of the New York Banks, originated in the successful attempt to break down the Dry Dock Bank; the failure of that Institution destroyed all confidence in those which remained, and the consequence was a run upon them all, which obliged them to empty their vaults—*in fact to fail.*

We should have rejoiced if the Deposite Banks, at least, had been able to maintain themselves, as their suspension of Specie Payments is just what Mr Biddle required to enable him to commence another campaign for the charter of a National Bank, with any prospect of success. This suspension must lead to an alarming state of things, if suffered to continue any length of time—true, it will apparantly mend matters for the present, but we look forward with dread and apprehension to the future. The suicidal policy recommended by the New York Commercial Advertiser, of sending the specie in the banks to Mr Biddle, we cannot believe that a sane Board of Directors would countenance for a moment—if banks have resolved to pay out no more specie at present, *let them hold on to what they have got to enable them to do ultimate justice to their bill holders.*

We understand that the present foreign money system in New England will be continued, and that the Suffolk Bank will continue to receive the bills of the country Banks at par.

Look Out Auctioneers.—The New York Grand Jury came into Court on Tuesday, and stated that they had found a true bill against Harton E. Sill & Elias E. Aaron, the actioneers, charging them with intent to cheat and defraud one Jacob Joseph Udolphus, by falsely representing that a certain box, which they, Harton E. Sill & Elias E. Aaron, offered for sale at public auction, at No. 180 Pearl street, on the 17th of April last, contained jewelry, which was there and then warranted by defendants to be manufactured of *gold*, whereas, in truth, the articles so warranted and sold, were not manufactured of gold, but in fact made of *brass* and other materials of no value.

Miss Wheatley's Benefit, at the Tremont this evening, we hope will prove worthy of her merits. Lord Finn will aid her on the occasion, and the whole bill of entertainment is of a very attractive character. If Bostonians wish to encourage a young lady of worth, genius, and beauty, and enjoy themselves at the same time, let them go to the Tremont to-night.

A Grave Bull.—It is stated on the grave-stone of a widow, in the church yard at Dedham, that she died at the age of 90—20 years of which she lived single, 30 years in wedlock, and 40 years as a widow. If this be correct, it would seem that, during her widowhood she did not live *single*. Perhaps she was an Irish lady, in which case, we may suppose all to have been right.

Says a Correspondent in a private note—"Bulwer is the only modern novel writer, with whom I really sympathize. He writes from the *heart*, and from actual experience and observation, rather than from the *head* and what he has seen in books."

The President has issued his proclamation, recognizing JAMES ANDREWS, Esq., of this city, as Vice Consul of His Danish Majesty, for the States of Massachusetts, Maine, N. Hampshire, and Rhode Island, and NATHANIEL TOWNSEND, Esq., as Consul for the Republic of Texas for the port of New Orleans.

By letters from Jackson, Miss. to April 28th, we learn it is in contemplation by the legislature to pass a law similar to the association of planters of Louisiana, by which the real estate of planters is pledged, and the State furnishes security for the capital.

Sufficient Stock of the Exchange Bank has been subscribed for in Norfolk, Va. to authorise the Commissioners to close the books, and proceed, in obedience to the commandment of the charter to organize the new institution.

☞ General Scott has declined the public dinner offered him. His moderation in eating in New York, is equal to his moderation in fighting Oseola in Florida, says Bennett.

Successor of the late Gen. Morton.—Gen Chas. W. Sandford has been appointed by the Governor and Senate of New York, Major-General of the first division of artillery.

Mr Geitner's Concert is to take place, next Saturday night week. Mrs Gibbs will give one, next Saturday night. She is a charming vocalist, and will be ably assisted.

We understand that the Merchants Bank of this city declined paying the certificates for the 5th instalment of the French Indemnification, which fell due yesterday, on the ground that the government has no funds for that purpose. What is the meaning of this? We do not believe that Mr Woodbury ordered the payment to be made at that bank without providing for it. The disappointment was great to holders of certificates, who felt sure of the cash, and were turned off with a negative.—*Advocate.*

The preceding paragraph does great injustice to the Merchants Bank. In the payment of the instalments of the Indemnification, that institution has no agency whatever with the Government, nor any communication on the subject with the Secretary of the Treasury. The Merchants Bank is the agent, for this payment, of the Bank of America at New York, with which institution the funds are deposited by the Government for distribution—and whatever notice may issue from the Treasury Department, the Merchants Bank is neither bound nor authorised to pay any part of the instalment until it receives instructions from the Bank of America. Whether the Government has funds in the Merchants Bank or has them not there, the Bank immediately pays the claimants on the credit of the Bank of America, when duly advised by that institution of the sum to be paid claimants here. As to the *disposition* of the Bank, which is impugned in the paragraph quoted from the Advocate, we know that the Cashier, not having received the instructions expected from the Bank of America, and knowing the disappointment experienced by the certificate holders here, wrote to the Cashier of that institution by the Steamboat mail of yesterday, requesting immediate direction in the matter, and we presume to-morrow's mail will bring an answer. The Bank of America has the funds, and if any blame attaches any where, it is there and not here. We have no interest direct or indirect in the Merchants Bank, whilst we have an indirect interest, so far as some of our friends are concerned, in the payment of the instalment, and we do not hesitate therefore to make this statement in justification of that institution if any be deemed necessary.—*Transcript.*

POLICE COURT.

Abuse of the Irish.—A very strong case of this kind came before the Court yesterday, though for some time after the warrant was granted and the government witnesses were examined, the beginning of the truth was not even suspected by the Judge, or by any one else, who only heard the first part of the evidence. The complainant was Watchman Brown, and the defendant was *John White*, an Irishman. Brown charged White with having knocked down a young man, by the name of *Chase*, in Blackstone street, near Hatter's Square, and arrested White for so doing.

Chase testified—"I was standing at the corner alone, having only ran out of my house, to see about the fire. I had not spoken a word to any one, when suddenly this man, the prisoner, came up, and said to me—'Do you call me a liar?' I replied—'I call you a liar! Prove it.' With that, without anything more said, he drew his fist, and knocked me down stiff, giving me the wound in the eye, that have got."

A witness by the name of Lowell, gave the same account of the assault, and the altercation which immediately preceded it; and the Court had not a shadow of doubt, that White was a dangerous sort of a man, but still asked him to make his defence, and call his witnesses.

White.—I pushed the man off the sidewalk, and he fell in the street, I know, but I did not strike him a blow, nor did I ever strike any man a blow.

Court.—But why did you push him? He had not done, or said, anything to you.

White.—I beg your pardon, your Honor. Him and his mates came round my house, asking where the fire began. I said it was in Mr Partridge's store, and upon this Chase—the man that has his eye marked—called me a d——d liar. With that I told him to go about his business, and pushed him off as he pressed towards me. I pushed him pretty hard, and he fell over into the street.

White then called two of his countrymen, who told a story like his own. They fully identified Chase as the individual who called White a d——d liar. Chase was then re-called, and re affirmed what he had before testified, without the variation of a syllable, and the Court was still inclined to think that the prisoner and his witnesses, had mistaken Chase for some other person. Mr Constable Pratt, at this stage, observed to his Honor, that he thought he could make the case a little clearer.

Judge.—I think it clear enough that Mr Chase has been assaulted—here are three witnesses, who testify precisely alike.

Pratt.—I think I can throw some light on the commencement of the affray, and upon the conduct of Chase and his comrades. I was nearer to them than Mr Brown, or Mr Lowell; and I wish to have it understood, that I have no blame to lay to Mr Lowell, or Mr Brown, as all they did see was the assault, which was actually committed to a certain extent.

Judge.—Proceed, Mr Pratt.

Pratt.—Chase, with some others, evidently came down to the Square to get into a row with the Irish people who were looking after their things, or moving them on account of the fire. I spoke to them about it, and told them to be off; but they persisted, and continued saying every thing that was calculated to bring the Irish out, and get into a fight—calling them Paddies, and casting all sorts of jeers upon them. While the fire was raging, I noticed White—he was quite sober, and worked very hard at the fire, both in carrying water, and saving goods. I heard one of the rioters ask White where the fire began—White replied very civilly, but Chase stepped up to him, and said he was a liar, and I am pretty certain that he put an oath to it. White then gave Chase a violent push, which made him fall down into the street, and that is the way his face became cut.

Judge.—May you not be mistaken with regard to Chase; for if what you say be correct, he has committed perjury.

Pratt—I cannot be mistaken—there is no chance, for I had my eye upon the party the whole time, and when they begun upon White, I was sure there would be a row from their manner of speaking to him. The fact is, Chase and his friends were excited, and came for a fight, and probably neither he, nor them, remember what was said, or done. White was immediately knocked down, and I had hard work to save him from an intolerable beating. I noticed Chase particularly, because he stepped upon the sidewalk, when he called White a liar. It was quite lucky for White, that Mr Pratt was present both at the affray, and at his trial; for his testimony turned the current of his Honor's feelings into the right channel, and the question was—not how much to punish—but how little. By the common law, words will not justify an assault,—and an unquestionable assault had been committed; but to inflict aught in the nature of an actual penalty upon White, would have been an outrage upon common sense—so he was let off by paying a fine of *one cent*, and *no costs*. Chase and the witness was then informed, that the Court would not allow them any fees for their attendance.

EXPRESS MAIL.

A slip from the Mobile Commercial Register of the 2d, says:—The United States transport schooner Motto, Captain Armstrong, arrived at Pensacola on Friday, from Tampa Bay, from which place she sailed on the preceding Saturday, the 22d ult. The principal chiefs of the Seminoles, Micanopy, Jumper, Cloud, &c. were still there. The other Indians were coming in slowly. They, however, generally come in without their arms and go away again under pretence of hunting their cattle, &c. It was understood before the Motto sailed, that Oseola had sent word that if he could be assured that Jumper had signed the treaty, he would come in. The probability is, that General Jesup will not be able to embark the Indians before the 10th of next month, if so early.

The following paragraph is copied from the Charleston Mercury of the 4th inst.—

From Florida—We have just heard that an express has arrived from Gen. Jesup, bringing information that the Indians had resumed hostilities.

New Orleans, May 2.—A dreadful affray occurred last evening in a house at the corner of Burgundy and Hospital streets, in which a man named Acheson was terribly stabbed in the shoulder and breast by an individual who gave his name James Limley: the weapon used was a dirk or Bowie knife. Limley was arrested and being confronted with the man stabbed, the latter recognized him as the one who had wounded him. Limley was lodged in prison. It is doubted whether the wounds are mortal, although they are very large. Acheson states that before he was wounded he had $800 in his pocket, which was not to be found afterwards. When Limley was confronted with the other, he had blood on his face.

We had hardly finished the preceding article when we were informed of another murder committed last night at the corner of Mandeville and Victory streets in the lower Fauxbourg. The perpetrator was immediately arrested. The victim was a white man, and the weapon used was a dagger.—*Bee.*

Nursing a Job—The coroner of St. Louis lately employed a sexton of that city to bury the body of a man found floating in the river. Towards the close of the the same day, the coroner was called upon to hold another inquest over the body of a man which had been found floating down the river in a coffin. Upon reaching the spot, the coroner found that it was the same body over whom he had held an inquest in the morning, and who had been sent adrift by the sexton in hopes, doubtless, of obtaining a two-fold job.—*N. MECHANICS' FAIR.—Notice to Mechanics, Artisans, Manufacturers, &c.—The undersigned give notice that the First Annual Fair of the Massachusetts Charitable Mechanic Association will be held in the city of Boston in September next, commencing on Monday the 18th, and continuing at least three days.

The Association have placed at the disposal of the Board of Managers, the sum of five thousand dollars, to enable them to conduct the Fair upon a liberal scale—and they hope to be able to render satisfaction to all who may feel disposed to offer articles for exhibition.

Medals or Diplomas will be awarded to the owners of all articles that may be deemed worthy of such distinction—and the Managers intend that the strictest impartiality and fairness shall be observed in the distribution of Premiums.

The Managers, in furtherance of the object they have in view, invite contributions of articles from every department of industry—of choice specimens of American ingenuity and skill—rare and valuable domestic productions, natural or artificial—the delicate and beautiful handiwork of females—useful labor-saving machines, implements of husbandry, and new models of machinery, in all their varieties.

Judges will be appointed to examine all articles offered, and the Managers will award a gold or silver medal, or a diploma, to all articles that may be pronounced by the Judges worthy of reward.

Articles intended for exhibition, must be delivered on or before Wednesday, Sept. 13th.

Arrangements will be made to exhibit, in operation, any working models that may be offered, which will render the Exhibition useful and interesting, and the Managers respectfully invite contributions in this branch. A careful and competent Superintendent will be appointed to take charge of all models sent for this purpose.

THE GENUINE MACASSAR OIL.—The merits of Macassor Oil in rendering the human hair soft, glossy, and consequently beautiful, are well known; and although too much has been said of its invigorating powers, in producing hair where baldness has already usurped the wintry sway, yet as an elegant and useful appendage to the toilet—as an eradicator of that pest to a fine head of hair, scurf and dandruff—and as a most powerful auxiliary to the embellishment of female beauty, too much cannot be said in its favor, nor can its virtues be too greatly extolled. E. V. ASHTON, & CO., 117 Washington st., have just received a case of Rowland's Genuine Macassor Oil. For sale at 62½ cents, each bottle, or $3 for a package containing 6 bottles.

NOTICE TO MERCHANT TAILORS AND DRAPERS.—JOSEPH W. JENKINS proposes to relinquish his present business in the course of the ensuing spring, if the sale of his present stock of goods, and the good will of the establishment can be satisfactorily effected, to any person competent and disposed to take and carry on the business in the establishment.

For the long period of nearly forty years Mr J. has been connected with the business conducted at his present stand, during which period he has been and still continues to be favored with customers esteemed for their respectability, and valuable for their constancy and punctuality.

It is needless to say that such an opportunity of commencing or enlarging business is of rare occurrence, and promises unusual advantages to any one of skill and ability adequate to assume and carry forward the establishment.

N. B. J. W. J. in making the above purpose known, respectfully informs his friends and customers, that until a successor is found that he thinks will be satisfactory to them, he shall retain his stand, and continue to use his best efforts to merit and retain their patronage.

COOKE'S EXTENSIVE EQUESTRIAN ESTABLISHMENT,
AND
SPLENDID ARENA,

WILL OPEN, for a short season, on MONDAY, May 15, 1837, and every evening during the week, at ½ past 6 o'clock. Performances commence precisely at ½ past 7. The whole of the entertainments will form an assemblage of talent and splendor not to be surpassed by any other Equestrian Establishment—the performances will be produced with the utmost grandeur and peculiarity of effect, embodying in the same evening the most unequalled Scenes in the Circle, and Acrobat Evolutions of Manly agility. Extraordinary Horsemanship by Messrs James Cooke and Woolford, Principal Equestrians, who will appear in some choice Scenic Arts—together with the full display of the abilities of the beautiful Stud of Horses and wonderful group of Burmese Ponies, with the astonishing performance of the infant Equestrian Prodigies, and a succession of novelties, which constitute one of the most varied, animated and interesting spectacles ever presented to an American public.

The performances will commence with a splendid Equestrian Cavalcade, entitled the Amazons and Warrior Chiefs—Master George Cooke will go through difficult exercises on his little vaulting steed—Mr Woolford will introduce the Persian steed, "Regeo Pak," in an equestrian sketch called the Omrah's Charger, or Horse of 5000—Mr James Cooke's graceful horsemanship, representing the games of Zephyr and Cupid—Novel Gymnastic feats by the Polish brothers—Mr Cooke's grandchildren will perform a new scene in the Arena, entitled Gulliver and the Lilliputians—La belle Rosiere on a fleet courser, by Mrs Cole—at this period of the performance, an interval of ten minutes.

The Second Part of the Entertainments will commence with Mr W. Cook's double leaping over and through various objects, concluding his surprising performance by jumping over twelve horses—Mr A. Cooke will perform his light riding and leaping act—Mr Wells will represent on an elevated perpendicular the Antipodean, or world upside down—The beautiful twin ponies, Hyder and Fatima, the greatest curiosities in America, will evince surprising docility and training—Mr James Cooke will give on a flying steed the Carnival of Venice. The above entertainments will conclude with a magnificent spectacle, under the title of Alexander the Great.

The arrangement of the Circle under the direction of Mr Cooke, Jr.

Clowns, Messrs Williams and Wells.

Full particulars will be given in the bills of the opening night.

Price of Admission—Boxes $1, Pit 50 cts. Children under 10 years of age, half price. Doors open at 6½, and the performances commence at 7½

Syphilitic Complaints.

FOR the infallible cure of all the stages of the *Syphilitic Disease*, from a slight infection, to the most virulent stage of the disorder, even when attended with Headache, Pain in the Bones, Blotches, Sore Throat, Enlargement of the Skin and Skull Bones, Loss of Appetite, and Universal Debility &c.

DR. HUNTER'S PILLS AND INJECTION POWDERS.

Continue to stand unrivalled.

Witness the following cases of cures:

☞ A Gentleman in Thomaston, was many years afflicted (thought incurable) with ulcers in his throat, pain in his limbs loss of appetite, universal debility, and otherwise diseased; his life dispaired of, was restored to perfect health and spirits by a few boxes of these Pills.

☞ A Seafaring man, suffered so severely from this complain for two years, as to be often deprived of his rest, had pains in his limbs, sore throat, headache, enlargement of the glands of the neck, scull bone affected, a bad cough, no appetite, entirely debilitated, and considered as past relief, having tried other medicines in vain, was cured, and restored to perfect health, by a few boxes of these Pills!

☞ A young man, was recently entirely cured from a bad stage of the complaint, by using the above medicine (to less than $3 value,) after receiving the advice of several physicians, and using various celebrated medicines.

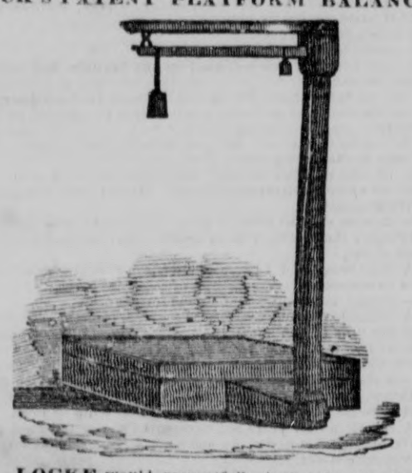
☞ An invaluable property! "I feel myself (writes a person, after using these Pills,) thoroughly cured, and believe this invaluable medicine has completely eradicated the complaint from my system; a property which I think this remedy possesses beyond any other with which I am acquainted, and is a desideratum in my view, which renders it above all price."

☞ A treatise explaining the various symptoms, with full directions, (so that persons of either sex can cure themselves) enclose each box.

*** Price of the Pills $1 a box—the Injection Powders and Cerate, 50 cents.

☞ Prepared from the original Recipe in MS. of the late Dr W. T. Conway by his immediate successor and the sole proprietor, T. KIDDER, of whom they may be had at his Counting Room, over No 99 Court street, corner of Hanover street, and also by his appointment of the Druggists generally Boston and vicinity. s23

PECK'S PATENT PLATFORM BALANCE.



L. LOCKE would respectfully invite the attention of those in want of weighing apparatus, to an examination of the above, as these Balances contain several useful improvements over any other scale of the kind now in use, and for both accuracy and convenience are not surpassed by any. They have given entire satisfaction to those who have purchased used and tested them. They are manufactured in the best manner, by experienced workmen, and warranted.

Purchasers will have the privilege of returning them after giving them a fair trial, if not satisfied with them. In introducing the above scales to the notice of the public, the subscriber would say, that it is with entire confidence that he will be able to meet the wishes and expectations of those who may favor him with their custom.

Please call and examine them at the manufactory No 3 Fulton st, (near the corner, rear of Commercial street, Boston,) where may be found, also, a good assortment of the Dearborn Patent Balances, Scale Beams, and most other kinds of weighing apparatus in use, for sale wholesale or retail, on the most liberal terms.

Separate offers must be made for each of the preceding numbers, and each offer must embrace all the timber that is called for by the number to which it refers the prices asked per cubic foot must be stated separately for, each and every class of vessels embraced in the offer, and for the promiscuous timber of each class, separately from the other; all of which other is considered moulded timber.

The whole to be delivered before the first day of July, 1838, and as much sooner as practicable.

The said Live Oak timber must have grown within twenty-five miles of the sea board, (which must be proved to the satisfaction of the respective commandants,) must be got out by the moulds and written directions, and specifications of dimensions, &c. which will be furnished to contractors for their government; and must be free from all injuries and defects, which may impair the good quality of said timber for the purposes for which it is required by contract, and be in all respects satisfactory to the commandants of the respective Navy Yards where it is delivered.

Bonds, with two good and responsible sureties, (whose names must be forwarded with the offers,) in the amount of one-third the estimated value of the timber to be furnished under the respective contracts, will be required; and, as collateral security for the faithful compliance with the terms, stipulations, and conditions of the said contracts, ten per centum will be reserved from the actual amount of each payment which may be made, from time to time, within thirty days after bills shall be duly approved and presented to the Navy Agents, until the said contracts are completed and closed; which reservations, respectively, will be forfeited to the use and benefit of the United States, in the event of failures to deliver the timber within the respective periods prescribed by the contracts.

The moulds will be furnished to the contractors, at one of the Navy Yards, Brooklyn, Gosport, or Philadelphia.

HELPS'S ARCANUM.—For the cure of the worst diseases of the skin, ulcerous sores, scrofula or king's evil, syphilitic and mercurial diseases, rheumatism, white swellings, liver affections, costiveness of the bowels, general debility &c. And such diseases as are caused by an impure or bad condition of the blood. It is likewise particularly recommended to those whose constitutions are broken by habits of luxury and intemperance, the injudicious use of quinine and mercury, and badly cured diseases, by unskilful or neglected medical treatment, and all those whose lungs and chest are diseased by remote causes in the system.

The Arcanum has proved itself by years of experience far superior in its effects to the Panacea of Swaim, Catholicon of Potter, or the French Robs. In testimony of the above statement, we refer to the opinion of Dr Sam'l L. Mitchell, of New York, Dr Jones of Baton Rouge, Dr Archer of Virginia, Dr Godman of Philadelphia, who have investigated the properties and efficacy of the article, and affirmed it as being superior to all medicines in their knowledge, for the removal of the diseases above named. Price $2 per bottle.

Boylston, Mass. Aug. 1st, 1835.

In the year 1830 I requested Dr Phelps to visit a daughter of mine, aged about 15 years, having a distortion of the spine or back bone, and whose general health had always been feeble.

The curvature of the spine, at that time, had acquired a hopeless and singularly disfigured appearance, and the Sternum or breast bone corresponded with the distortion, presenting to the beholder a deformity calculated to excite the deepest sympathy. From the first appearance of this disease, I had solicited the most skilful of the profession, whose attendance, various prescriptions and remedies were unattended with success or benefit—in a word, the progressive march of the disease bid defiance to the ingenuity of skill, and the power of medicine.

It was under these circumstances that we commenced the use of the Arcanum, which was perseveringly administered for several months. Her general health soon began to improve, and the progress of the disease was gradually arrested by this medicine only, and the use of the salt water bath.

From this period, her strength and energies of mind and body were evidently improving, and the deformity has subsided with the growth of years. At this time, which is more than five years since, we adopted the treatment of Dr Phelps, my daughter is in the enjoyment of good health, to our astonishment and admiration. She has been a teacher or instructress for two years past M. DAVENPORT.

The great demand for the Arcanum, and its remarkable effects in chronic dishases, give it the decided preference to any other medicine. See Medical Advertiser

IMPORTANT TO THE AFFLICTED, DR. HERBERT, Member of the Royal College of Physicians, Edinburgh, may be consulted on all diseases incident to the human frame. Patients who are incapable from infirmity of attending personally upon Dr H. can, by sending a particular statement of their case, be told whether they are curable or not.

"Medicine without principles is an humble Art, and a degrading occupation."

Dr Herbert having arrived in America for the purpose of taking a tour through it, and seeing in every place he visited so many invalids laboring under different complaints, and so many who have ruined their constitutions by applying to advertised nostrums, respectfully informs the citizens that he has returned to the city of Boston and intends remaining for the purpose of rendering his services to the afflicted.

Dr H. may be consulted at his apartments, No 274 Washington street, ☞ near Avon Place, ☜ from 10 in the morning till 8 in the evening. The Doctor wishes every person who may need his advice, to make timely application.

The advantages the Dr has possessed of acquiring a knowledge of different diseases, have been far greater than generally falls to the lot of any individual. From his peculiar mode of treatment, his professional celebrity has been established;—and since his arrival in America, gratitude arising from a thousand hearts is and has been a sweet enjoyment.

Report of patients relieved and cured by Dr Herbert since his arrival in the U. States;—Abscess 36—Asthma (periodical, constitutional and spasmodic) 70—Blindness, from various causes, 38—Dropsy in its complicated stages, 68—Fits 64—Fistula without cutting, 54—Nervous Disease, 140—Piles, 58—Rheumatism, 80—Stone and Gravel, 50—Bilious Disorders, 57—Cancer and White Swelling, 68—Consumption, 90—Deafness, 54—Diseases of Infants, 68—Giddiness, 67—Gout, 52—Headache, from various causes, 75—King's Evil, 46—Liver Complaints, 51—Lumbago, 52—Scurvey, 68—Gravel, 75—Ulcerated Sore Legs, 38—Worms, 85—Paralytic Stroke, 56—Ague, 30.

TO DR. HERBERT, 274, Washington street, (near Avon Place,) Boston, Mass. Dear Sir:—A sense of justice to you and to humanity, induces me to make the following statements of facts, which you are at liberty to use in any way that you may think proper,—it may be the means of inducing other sufferers to apply to you. This is to certify that I was afflicted with a disease called "Scorbutic, or King's Evil," for four years, for which I was attended a long time by some of the most respectable Physicians of Boston, without receiving any benefit. Having heard of Dr Herbert's success in curing diseases, I thought I would call upon him, and did; I commenced taking his medicine according to his directions, and in a very short time a favorable change was perceptible, and I am now perfectly cured. With every feeling of gratitude to you, Sir, as the author of the relief I have experienced as above, I subscribe myself your obedient and ever grateful servant, BRIDGET DIXON.

DOMINOES.—A great variety of the above, from 37½ cents to $1,25 each, just received at E. E. DYERS, 106 Washington st. jan24

TO THE PEOPLE OF THE UNITED STATES OF AMERICA.

AN account of that most excellent Medicine prepared at Dr Loveman's Gilead House. Price 50 cents per bottle. Sold by appointment in Boston, at D. S. ROWLAND'S, 188 Washington street, Boston.

"*To administer to a mind diseased, pluck from the Memory a rooted Sorrow,*

"*Raze out the written troubles of the Brain, and with some sweet oblivious Antidote,*

"*Cleanse the foul Bosom of that perilous stuff which weighs upon the Heart.*"

Dr. LOVEMAN'S Balm of Gilead is universally acknowledged to be peculiarly efficacious in all inward wastings, loss of appetite, indigestion, depression of spirits, trembling or shaking of the hands or limbs, shortness of breath, and consumptive habits. It thins the blood, eases the most violent pain in the head and stomach, and promotes gentle perspiration. By the Medical Faculty this medicine is much admired being pleasant to the taste and smell, gently astringing the fibres of the stomach, and giving that proper tensity which a good digestion requires.

Dr Loveman's Balm of Gilead is recommended to the weak, the relaxed, and debilitated, as an agreeable and speedy restorative; and considered as a cordial, is essential to the comfort of ladies of fashion, being a preventive against cold, when taken before going out to parties, balls, routs or the play It will enliven the spirits and invigorate the mind and body, and if taken after fatigue, it will with a few hours sleep, take away all laeguor consequent on broken rest, and give relief from every unpleasant sensation.

It is a most valuable remedy for such diseases as are attended with the following symptoms, namely—a great straitness of the breast, with difficulty of breathing—violent palpitations of the heart, sudden flasces of heat in various parts of the body—at other times a sense of cold, as if water was poured on them—flying pains in the arms and limbs, back and belly, resembling those occasioned by the gravel—the pulse very variable, sometimes uncommonly slow, at other times very quick—yawning, the hiccough, frequent sighing, and a sense of suffocation, as from a ball or lump in the throat—alternate fits of crying and convulsive laughing—the sleep unsound, and seldom refreshing, and the patient often troubled with horrid dreams. Much has been said by interested individuals against Medicines that are advertised, but there is a very important observation to be made respecting Dr Loveman's Balm of Gilead, that unless its operation was gentle, safe and efficacious, it could not have obtained the unexampled demand it has acquired.

NERVOUS DEBILITY

"*Without Health we can enjoy no Fortune; Honors, Riches, and all other advantages are useless.*"

HIPPOCRATES.

This Cordial has been uncommonly successful with young people who have the appearance and air of old age, who are pale, effeminate, benumbed, stupid, and even imbecile; whose bodies are become bent, whose legs are no longer able to carry them, who have an utter distaste for every thing, and are totally incapacitated. Where the stomach is frequently disordered, the body is weakened; paleness, bodily decay and emaciation succeed, and the eyes sink into the head. The virtues of Dr Loveman's Balm of Gileadare demonstrated, in eradicating the worst and most dangerous symptoms of nervous debility, and nothing has tended so much to establish the fame of this medicine, as its certain success in those complaints which strike their roots so deep in the constitution, and are so fatal to the happiness of mankind.

Dr Loveman's Balm of Gilead has risen in repute with every trial of its efficacy. Some, perhaps, unacquainted with its virtues, not having perused the Guide to Health, may be induced to ask what is the Balm of Gilead good for? What complaint doth it cure?—To answer this it will be necessary to

"*Hold the Mirror up to Nature.*"

Let those who are afflicted in the following manner reflect on the cause that produced such havoc upon the "wholesome appetites and powers of life:"—disordered stomach, dry cough, weakness in the voice hoarseness, shortness of breath upon the least exercise, and relaxation of the whole system. Those afflicted with paleness, languor of the eyes, weakness of sight or memory, should take time to consider Linnæus's advice, that "youth is the important period for forming a robust constitution," and that "nothing is to be dreaded so much as premature excess." The foundation of a happy old age is a good constitution in youth; temperance and moderation at that age are passports to happy grey hairs.

For such as have violated these precepts, then, this healing balm is suitable—complaints included in the vague appellation of Nervous and Consumptive, are those for which it is peculiarly adapted.

In offering this medicine to the public, I can say with confidence that they will find great benefit by using it in all diseases recommended, as I am fully acquainted with the medical qualities, as they have been discovered by myself, and are extracted from vegetables, and I can truly say, there is no earthly danger in using the medicine by any person, no matter how they may be afflicted. This medicine has been used by a large number of persons, and have been cured of diseases of a long standing, when all other medicines have failed. n23

THE TRUTH WILL PREVAIL.
CERTAIN DISEASES CURED.

Dr. Goodwill's Gonorrhœa and Gleet Detergent.

THE only infallible remedy ever discovered for Gonorrhœa and Gleets is now become too well known and established, in all parts of the Union, to require comment. Its universal success, which in no instance has ever failed, has warranted it to cure in forty-eight hours the most desperate and inflammatory cases of Gonorrhœa, Gleets, and whites in all their stages, strictures, Seminal Weaknesses, pains in the loins, irritation of the Uretura from Gravel, as well as chronic affections of the urinary bladder and kidneys, if ever so violent or of long standing. This safe and only infallible remedy is an agreeable liquid, and its effects long on the constitution, (being composed of Sarsaparilla and the choicest of preparations) that while it restores the system, its superiority over every other kind of medicine only requires a limited trial to know its efficacy. Every person that has made use of this medicine has been his own physician, and secrecy has been secured—having proved effectual in almost two thousand cases, and never to our knowledge failed in any instance. The vast and increasing sale from the recommendations of the highest medical characters, as well as those who have experienced its salubrious and beneficial effects, prove its great success and entire superiority over every other medicine, in being the most effectual remedy ever discovered for the cure of the above diseases, giving—muscular strength, energy and vigorous health to the whole frame. The most delicate females may take it with perfect safety. Dr Goodwill's Detergent is a safe, certain and speedy cure for the above diseases, from the most recent to the most protracted cases. It is taken without any risk, inconvenience, or suspension from business. See that your case is eradicated, not patched up by quack doctors or quack medicines. Those who make use of one single bottle may be convinced of the easy method of being cured. The "motto" of this medicine, "let every person be their own physician with secrecy." It will prevent the occurrence of the disease in persons, male or female, of the most fastidious delicacy, and is a real blessing to human kind. It ought always to be on hand.

N. B. A word to the wise.—Take no medicine but the above, and keep away from the quack Doctors, whose names appear in every public print, and then you take no mercury and save your constitution.

"We have much pleasure in bearing testimony to this safe and efficacious Medicine: we do this on grounds of strict impartiality, knowing several friends who have been cured by it. A fact that we know.

For sale by appointment at 188 Washington street, opposite the Marlboro' Hotel. A. Underhill, 38 Beekman st. New York. Jones & Hutchingson, corner of 7th and Chesnut sts, Philadelphia. Price 50 cents per bottle. n23

☞ TO THE PUBLIC.—Anacreon, the prince of ancient poets, the lover and the eulogist of the ladies, never forgot, in his odes, to mention of the teeth of pearl.

Ovid never for one moment lost sight of the "balmy breath" of his ladies, and his earnest recommendation to both sexes was ever to "keep your teeth clean, and your breath sweet." The ancients had the means of doing so. Anacreon's beauties were as noted for their flowing tresses and their eyes of fire, as for their teeth of pearl and their breath of balm.

Ovid, who has taught us how to love and be loved, laid more stress upon the teeth and breath, than any other point—and verily these precepts are worthy of our practice.

How many matches have been broken off—how many *amantes* separated—how much misery caused by the single fault of a bad breath.

I once heard a lady sing, and most divinely. Her voice was clear, full and melodious, her tones superb, but the air beyond endurance.

Who does not wish to have this defect remedied? What lady does not wish to be blessed with the "teeth of pearl and the balmy breath," so noted by the divine Anacreon? What gentleman does not wish to be in every wish agreeable to the ladies?

THE REMEDY IS IN YOUR OWN HANDS—Dr Palmer's Diman Pearl Tooth Powder and Brushes is offered as a remedy whose effects are as certain as they are delightful.—This excellent tooth powder is not the invention of the present day. It has not been confined to modern times, and Dr Palmer has had the happiness of restoring, in its purity, the long lost article which was in such vogue in the days of yore. It is offered with the fullest confidence as to its merits, to which thousands who have used it can testify, and should any lady or gentleman who, by misfortune, have been afflicted with noisome breath or bad teeth, make one trial of its virtues, and not feel perfectly satisfied of its efficacy, then "Othello's occupation's gone."

The Diman Pearl Tooth Powder and Brushes is no modern quackery. It requires no puffing, no paragraphing, to render it uses as general as its effects are delightful. The ingredients are of a nature which cannot injure, and must beautify the teeth and sweeten the breath. The certificates of many of the ablest medical practitioners of this country will testify to the fact, and the innumerable recommendatory letters, from ladies and gentlemen who have used it are sufficient guarantees for its worth.
